

# Local Jaycees Host Convention in May

Torrance and other cities of the Junior Chamber of Commerce District 12 will sponsor the 26th annual state convention of the Jaycees at Avalon on Catalina May 8-11, it was announced yesterday by Bert Lamb, president of the Torrance chapter.

## Death of L. B. Judge Mourned

Death of Judge Harry F. Keeler, 52, of Long Beach last Saturday morning was mourned here this week by relatives and a host of friends in the Torrance area.

A brother-in-law to Mrs. Walter Rohwoldt, 1601 El Prado, Judge Keeler died at his home a few hours after attending a meeting of the Long Beach Bar Association.

Funeral services were held Tuesday afternoon in Motell's Mortuary in Long Beach, and interment followed in Fair Haven Cemetery in Santa Ana.

A native of Longmont, Colo., Judge Keeler came to California in 1928. He was appointed deputy district attorney in 1936 and assigned to Long Beach, where he conducted some of the most widely publicized criminal trials in the court history of the city during the next 14 years.

In 1948 Gov. Earl Warren named him to the Municipal Court bench and three months later he was elected presiding judge for the next 12 months.

He was a member of many organizations including the Bar Association, the American Legion, Masonic Lodge and the California Heights Methodist Church.

Marking the first time the convention will be hosted by a district, the convention is planned as one of the best in the history of the junior boosters, Lamb said.

More than 1000 delegates from California's more than 100 Jaycee chapters are expected to attend the four-day meeting, making it one of the largest Jaycee gatherings ever held in the state.

Torrance is charged with providing the entertainment for the convention, Lamb said. It will also help in the overall planning for the meeting.

"Jaycee Catalina '52 Pictorial," the official convention program, is being published by the District. The city of Torrance with \$75 pledged by the City and the Chamber of Commerce will be well advertised on the program, Lamb said.

"The district feels that this program will be one of the most comprehensive boosters ever offered to the cities in the way of statistical publicity," the president said.

In the program will be articles about each of the sponsoring cities including notable points of interest, statistics and other information.

## Legion Ranks Swell to 170 During Drive

Membership of the Bert S. Crossland Post of the American Legion has been swelled to 170 with the signing of 30 new members during the current drive, it was announced yesterday by President Bob Faren.

"We are doing well, but we are still looking for more," Faren said. Membership fees are a very reasonable \$5 a year, according to Gordon Arnold, head of the drive. The dues include subscriptions to the state and national Legion magazines.

Meeting nights are the first and third Tuesdays of each month at the Legion hall, 1109 Border Ave.

"The hall will also be open every Saturday from now on," Faren said.

President Faren also announced that United Steel Workers Local 1414 planned to hold a dance in the hall Saturday evening.

**COAL IN PHONES**  
There are about 50,000 granules of finely crushed coal in the mouthpiece of each telephone instrument.

## School Bond Sale Receives Backing

Sale of \$2,400,000 of Torrance Unified District School Bonds recently approved by district voters was given the go-ahead signal by the Western Investment Banking Voluntary Credit Restraint Committee, according to a telegram received by Dr. J. H. Hull, school superintendent, this week.

The committee is an investigating body which determines the available credit resources of those who offer securities for sale to the public.

Although \$3,000,000 worth of bonded indebtedness was okayed by Torrance voters, the bonding capacity at the present time, based on current assessed valuation and repayments on previous bond issues, is \$2,400,000.

The remaining \$600,000 will be sold starting in about two years, Dr. Hull has stated.
